OMNI-DATA
Introduces
SINGLE HOLE, MANUAL TAPE PUNCH AND SPLICER

Omni-Data, a division of the Borg-Warner Corporation, has recently announced a Single Hole, Manual Tape Punch and Splicer, designated the Model #9. This Punch can be used for editing and correcting data in 5, 6, 7 and 8 level perforated tapes. In addition, the device can be used for splicing.

The Punch is rugged and well built, designed for table-top operation. It is portable and simple to use, with precise sprocket hole locators.

The unit cost is \$28.00 each, F.O.B. Philadelphia.

Omni-Data produces the OMNI-DATA family of Photoelectric Readers, Reelers and Electrostatic Printers and Recorders. Further information can be obtained by writing Omni-Data, 511 North Broad Street, Philadelphia, Penna. 19123.
